PROVE YOU'RE A CYBERSECURITY AUDIT PRO

ISACA's new Cybersecurity Audit Certificate Program provides audit/assurance professionals with the know-how needed to excel in cybersecurity audits. It also gives security professionals exceptional grasp of the audit process, and IT risk professionals vital understanding of cyber-related risk and mitigating controls.

Gain critical know-how that enterprises need and that their leadership increasingly expects of their information systems and technology professionals. The knowledge-based training and study materials will prepare you to obtain ISACA's new Cybersecurity Audit Certificate which will demonstrate your ability to:

- Understand security frameworks to identify best practices.
- Define threat and vulnerability management.
- Assess threats with the help of vulnerability management tools.
- Build and deploy secure authorization processes.
- Explain all aspects of cybersecurity governance.
- Distinguish between firewall and network security technologies.
- Enhance asset, configuration, change and patch management practices.
- Manage enterprise identity and information access.
- Identify application security controls.
- Identify cyber and legal regulatory requirements to aid in compliance assessments.
- Identify weaknesses in cloud strategies and controls.
- Perform cybersecurity and third-party risk assessments.
- Identify the benefits and risks of containerization.
- And much more!

CHOOSE A FORMAT THAT BEST MEETS YOUR INDIVIDUAL NEEDS:

ISACA offers three convenient Cybersecurity Audit Certificate bundles. Each features a **study guide**, an **exam voucher**** and a **choice of training**. Choose the bundle that best fits your schedule and preferred style of learning:

Online Course: is available on-demand on your schedule, wherever you have Internet access. This option also provides Online Pre- and Post-Assessments to measure how your understanding has improved.

Virtual Instructor-Led Training (VILT): offers the best of two worlds—direct interaction with an expert instructor and the convenience of remote access to a state-of-the-art virtual classroom.

Onsite Course: enables you to work with both the instructor and fellow attendees, maximizing your immersion and allowing you to gain from others' point of view and understanding.

Earn up to **14 CPE credit hours** depending on the bundle you choose!
